December 16, 2020

The Honorable Gary Batton
Chief of the Choctaw Nation of Oklahoma
P.O. Drawer 1210
Durant, Oklahoma 74702

Subject: EPA's Response to Comments Regarding Consultation Under the National Historic Preservation Act with Respect to the State of Florida's Request to Assume Administration of a Clean Water Act Section 404 Program

Dear Chief Batton:

On September 2, 2020, the U.S. Environmental Protection Agency issued a letter to the Choctaw Nation of Oklahoma that extended the opportunity for consultation and coordination under Section 106 of the National Historic Preservation Act (NHPA) of 1966, as amended, on EPA's action to approve or disapprove the State of Florida's request to assume administration of a Clean Water Act (CWA) Section 404 program. EPA's letter provided the Choctaw Nation of Oklahoma a weblink to access the documents that were submitted to EPA with the State of Florida's request which included the Operating Agreement (OA) signed by the Florida Department of Environmental Protection (FDEP) and the Florida State Historic Preservation Officer (SHPO).

On September 15, 2020, EPA invited the Choctaw Nation of Oklahoma and other tribes with interests in Florida to participate in an informational webinar that was held September 22, 2020. The purpose of the webinar was to assist tribes with making an informed decision about whether they wanted to consult with EPA relative to Florida's request to assume the CWA Section 404 program. On September 22, 2020, the EPA provided the Tribe with the slide presentation that was given during the webinar. The presentation provided an overview of the federal requirements and processes regarding a state/tribe request to assume administration of a CWA Section 404 program, as well as an overview of the NHPA undertaking and Section 106 consultation process. The presentation also included information about EPA's plan and proposed processes to comply with NHPA Section 106 by entering into a programmatic agreement (PA) utilizing the OA between the FDEP and the SHPO as the foundation of the PA. The presentation also included a request that the tribes identify any issues, gaps, and/or concerns they had with the OA which EPA would try to address in the PA.

On September 22, 2020, the Choctaw Nation of Oklahoma responded by email and accepted EPA's invitation to consult under Section 106 of the NHPA regarding the State of Florida's request. EPA and the Tribe continued communication during the consultation process as summarized in Enclosure A. Additionally, EPA provided a draft PA to the Tribe and the other consulting parties on

November 25, 2020. In response to comments received, EPA made modifications to the PA and transmitted a revised version of the PA to the Tribe and the other consulting parties on December 10, 2020.

Provided in Enclosure B is a responsiveness summary that includes EPA's responses to comments received from the Choctaw Nation of Oklahoma and the other consulting parties during the consultation process. EPA is providing the complete responsiveness summary per the request of the Advisory Council on Historic Preservation (ACHP) and agreement of the consulting tribes during a December 14, 2020 meeting. The EPA intends to execute a PA with the ACHP, FDEP, and the Florida SHPO prior to taking action on the State of Florida's request and will send the Choctaw Nation of Oklahoma a copy of the PA once executed.

We appreciate your engagement throughout the government-to-government consultation process and your important feedback and input on the PA. If you have any questions regarding this matter, please contact me at (404) 562-9345, or have a member of your staff contact Mr. Kelly Laycock at (404) 562-9132 or laycock.kelly@epa.gov.

Sincerely,

Jeaneanne M. Gettle, Director
Water Division
